PIANETA

Elli&Rini

The meeting of two stories.

The history of the Foiadelli family, generations of engineers, entrepreneurs and industrialists: the ingenuity, passion and pragmatism of people used to transforming ideas into technological solutions.

The history of the Vaccarini family, a history of the Italian artistic and intellectual tradition that has crossed the 20th century to reach the 21st century, reinterpreting the aesthetic and ethical vision of the figurative and musical arts through the interpretation of technology.

In 1999 these two stories met and from their subsequent union, in life and work, Elli & Rini was born and draws inspiration: an atelier of ideas which, in constant openness and dialogue with professionals and visionaries devoted to the search for beauty and the new, gives life to innovative solutions in which design and technology meet to be at the service of people and the world.

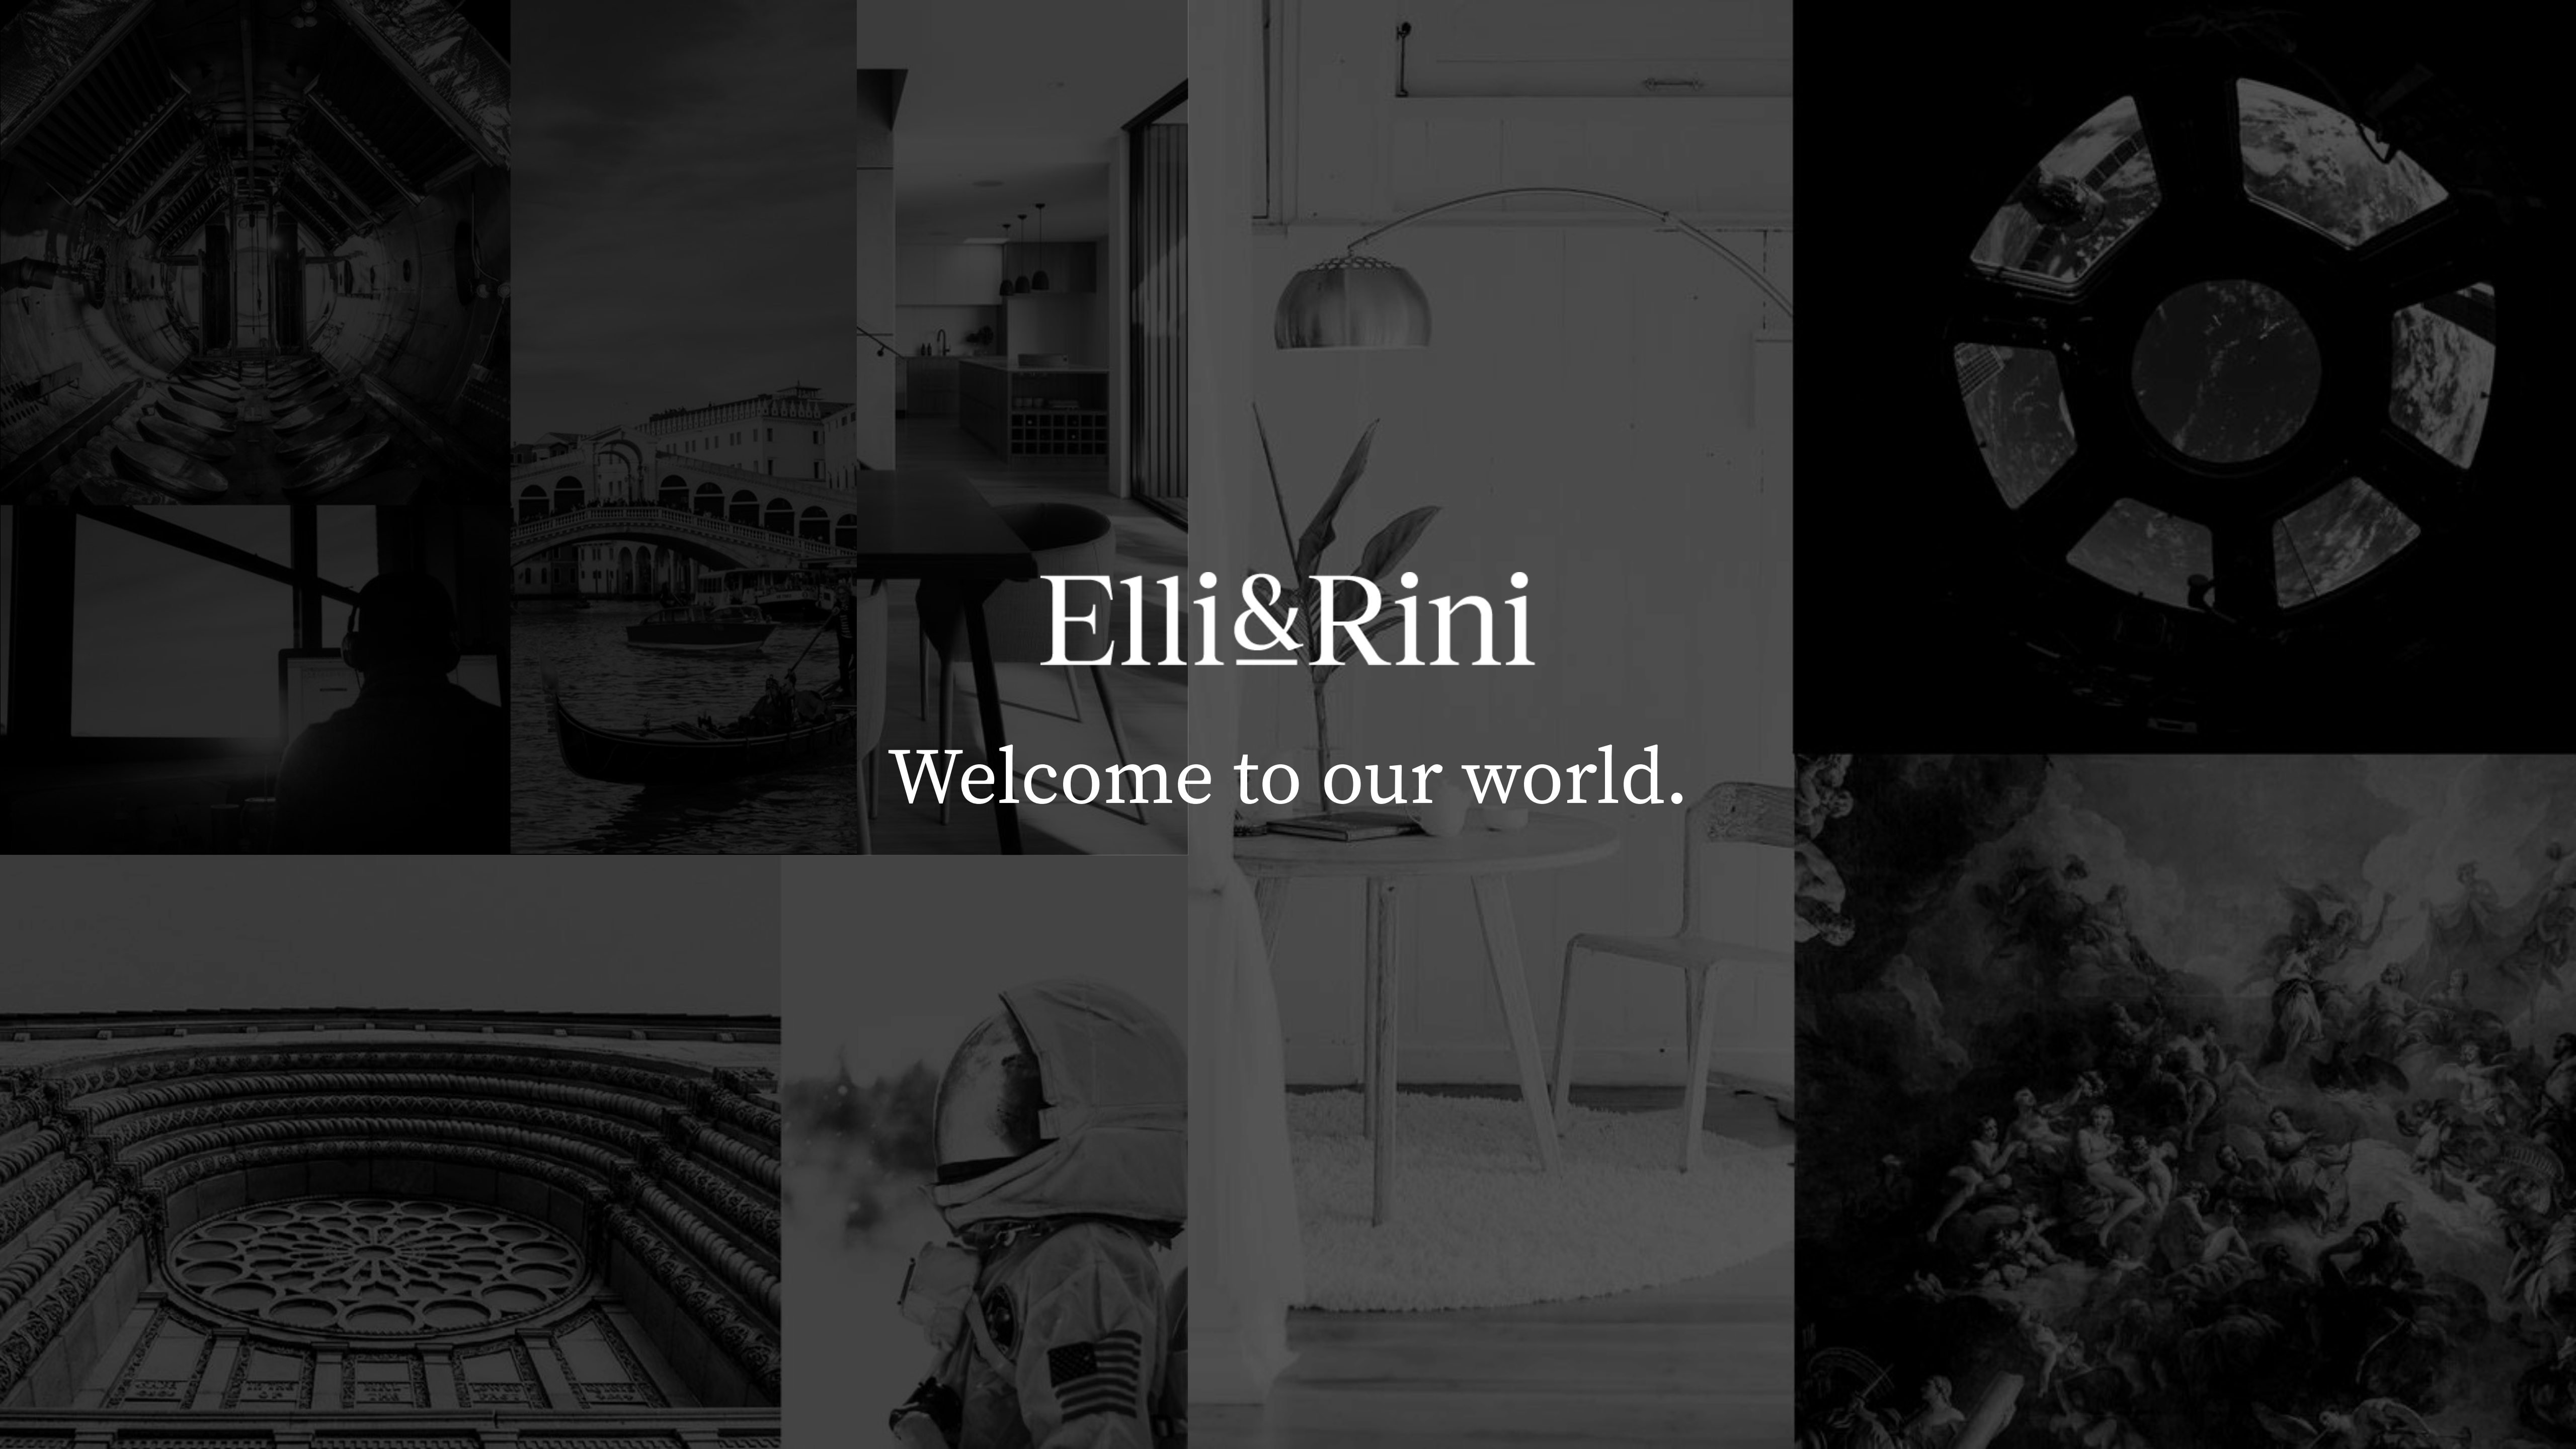

Elli&Rini

Elli&Rini

Creative atelier of physical and digital design
solutions, inspired by technology and beauty.

Elli&Rini

Welcome to our world.

PIANETA

Redesign the Space

E&R

PIANETA is a bright and sartorial design object.
A space in space, a double-breasted technological place.

PIANETA is a space within a space that transforms itself, dresses
up, enriched with new functions capable of creating new sets
within one's home, office or boutique.

Why you should choose PIANETA?

The speed of digitalization

Possibility for the brand to insert an element of digital living within its boutique to create a connection between the physical experience and the digital world.

A new experience vision

Recreate a continuous experience client-personal shopper in boutique context mixed with augmented reality and privacy.

Mini-boutique worldwide

PIANETA can be installed in public contexts like young airports and hotel halls and for temporary events like events and sporting events.

Your PIANETA customized

Possibility to customize your PLANET, using the materials, as well your distinctive features.

A sculpture-lamp and a comfortable and technological environment, a workplace but also a space for reading, meditation, listening to music, entertainment.

Outside the structure is composed by wood, available in different essences (oak, honeyed walnut, polished mahogany, lacquered...), and is covered with backlit panels enriched with natural elements (stabilized plants), stone materials (Dekton Slim by Cosentino) but also glassy or fabric.

Inside, the core offers an adjustable armchair, double coffee table, storage compartments covered in leathers and fabrics and a technological system (monitor, dolby audio system, webcam, wireless charging system, USB ports and futuristic haptic panel for the management of each interaction) integrated into the structure for maximum comfort and sensory experiences to listening music, watching TV, making video calls or working on the computer.

The combination of external and internal finishes offers a wide and strong customization of the product, allowing it to be set within any space.

ORIGINE COLLECTION

Y.O.U

your own universe

Combine the materials and fabrics selected by the architect and designer Dudan and create your PIANETA.

E&R

Bespoke Edition

The creativity of our atelier exists on the unique experiences and emotions of its customers. Beyond the collection and Y.O.U. selection, we are ready to design new shapes and dress them according to the most personal and refined taste of the customer in search of their unique and unrepeatable PIANETA.

Bespoke Edition is the door to enter your cosmos.
